LG 10178, 11265Panasonic 10051, 10250Samsung 10612, 10060Sanyo 10154, 10159Sony 10000, 11100Sharp 10093, 10165Toshiba 10156, 11156Vizio 11758, 11756LG 10178, 11265 Panasonic 10051, 10250 Samsung 10612, 10060 Sanyo 10154, 10159 Sony 10000, 11100 Sharp 10093, 10165Toshiba 10156, 11156 Vizio 11758, 11756Don't see your TV brand in most popular TV codes, go to complete Xfinity Remote Code list How to Program your remote using the RF pairing:Install the remote control batteries and make sure your TV and set-top box are powered on.Press and hold the "Setup" button until the LED at the top of the remote changes from red to green.Press the XFINITY buttonEnter the 3 digit code shown on your screenProgram your remote using a code:Turn on the TV you are programming.Press and hold the "Setup" button until the status LED at the top of the remote changes from red to green.Type in the 4-digit or 5-digit code listed below using the number buttons. Additional codes may be found in the remote manual.Most likely codeIf the code is entered correctly, the status LED will flash green twice. If the status LED blinks red, then green the code was not entered correctly. Check that you are entering the correct code and try again.Use the remote to operate your TV (use Power, VOL, etc.)If these steps don't work, try another 4-digit or 5-digit code and repeat the above.How to Pair and Program Your Xfinity Voice RemoteFind Manufacturer's setup code here : 4 digit code, 5 digit code for your TV then follow the instructions listed belowSimple Steps to Program Your Xfinity RemoteStep 1 : Turn on your TV and set-top box.Step 2 : Press the Setup button on your remote until the LED at the top of the remote changes from red to green.Step 3 : Enter the universal remote code from the TV codes lookup tool using the number buttons on the remote.Step 4 : The LED should flash green twice when the code is entered.Step 5 : Press the TV Power button on the remote.Step 6 : If the TV turns off, you have successfully programmed your remote to control your TV.How To Program X1 Remote Control to Your TV and Audio DeviceIf you can't find the code that works for your TV after following the steps above:Step 1 : Press and hold the Setup button on the remote until the LED at the top of the remote changes from red to green.Step 2 : Press 9-9-1 on the remote. The LED should flash green twice.Step 3 : Press the CH button multiple times until the TV turns off.Step 4 : After the TV turns off, press Setup.Step 5 : Press the TV Power button on the remote. If the TV turns on, you have successfully programmed your remote to control your TV.Troubleshoot Xfinity RemoteIf you have an Comcast Xfinity remote that is not responding or working as expected when you press buttons on the remote, follow the steps below to troubleshoot.Xfinity Remote Buttons are not respondingPress a button on the remote.If the LED does not flash at all, replace the batteries and try again.If the LED flashes red five times on any button press, this is an indication that the batteries are very low and should be replaced.Try Factory Reset of Xfinity Remote with a Setup Button (XR11)If the buttons on your Voice Remote (model XR11) are still unresponsive, you may need to perform a factory reset. To perform a factory reset:Press the Setup button until the LED at the top of the remote changes from red to green.Press 9-8-1.The LED will blink green twice to indicate that the remote was reset.The factory reset unpairs your remote and TV Box, so you'll need to re-pairFactory Reset the Xfinity Voice Remote without a Setup Button (XR15)If the buttons on your Voice Remote (XR15) are still unresponsive, you may need to perform a factory reset. To perform a factory reset:Press and hold the A (triangle) and D (diamond) buttons at the same time for three seconds until the status light changes from red to green.Press 9-8-1.The LED will blink blue three times to indicate that the remote was reset.Disconnecting Your Xfinity Voice Remote from TVOnce a remote is setup, it won't work with any other TV until you break pairing connection. Follow below instructions for xfinity remotes with a Setup button:Press and hold the Setup button for three seconds until the status light turns from red to green.Enter 9-8-1 on the remote. If the status light blinks green twice, remote is disconnected from TV.For remotes without a Setup button, with number keys (XR15 Xfinity X1 or Flex Voice Remote):Press and hold the A (triangle) and D (diamond) buttons at the same time for three seconds until the status light changes from red to green.Enter 9-8-1 on the remote. If the status light blinks blue twice, Now Comcast xfinity remote is disconnected from TV. Some people also call the remote connection with TV as pairing, your all set to connect your remote to a new TV Box, and also to a different TV if you'd like. When aimed directly at the original X1 TV Box, it'll still control that, too. Article ID : 00019808 / Last Modified : 08/14/2019 IMPORTANT: This article applies only to specific products and/or operating systems. Check Applicable Products and Categories for details. NOTE: Not all TVs are supplied with color buttons. To see if your TV has the color buttons, check the specifications or the instructions manual supplied with the product. Manuals are posted on your model support page. When entering the security key for your home network or using the Internet browser, the colored buttons will allow you to perform the following actions: IMPORTANT: The colors of the buttons may differ depending on the models or regions. Yellow - Input Mode This button allows you to select between lowercase to uppercase letters. Blue - ABC This button allows you to delete characters, numbers or symbols. Red - A/a This button allows you to change the input language (English, French or Spanish). Green - Backspace This button allows you to select between letters, numbers or symbols. Contact Support Parts & Repair Hisense smart TV users often encounter a situation where they need to reset their TV and in such cases, many are not aware of how to do the same.While it may appear annoying to reset your TV, you would not be the first person to do so, and with this article, we aim to make it easy for you.I will show you how to restore your Hisense Smart TV back to factory default settings in order to make it work once again.Also in case you have lost or damaged your Hisense TV Remote and wish to Factory reset it, I have covered both Reset methods so you do not have to worry.Moreover, The reset method for Hisense Smart TV is different for Old and New Models, and in this, I will be covering both variants.How To Factory Reset Hisense Smart TVs (New and Old Models)?How To Reset Newer Model Hisense Smart TV?The newer models of Hisense TV do not have a reset button on the front of the TV. And as you probably know, there is no reset button on the back.In fact, the only way to reset a new Hisense smart TV is with a button on their remote control.Here are the steps to factory reset the Hisense Smart TV (newer models):Turn on your Hisense TV and navigate to Menu by pressing the "MENU" button.Proceed By selecting "Support" with the "Select" or "OK" button.Now, Start the self-diagnosis by pressing "OK".Choose the "Reset" option now.For confirmation, you will need to enter the security PIN (default is "0000").Now wait for completion and your Hisense TV will restart itself and after that, you will be able to use it.Once that is done, your Hisense Smart TV will be restored to factory settings.How do you reset an older model of the Hisense Smart TV?If you have an old Hisense Smart TV from a few years ago (2014), you may have been experiencing trouble watching videos. When the TV is turned on, a grey screen appears and you cannot do anything. Or you might face other issues as well with it.Luckily doing a hard reset and restoring the settings to factory default solves almost all of them.Here are the steps through which you will be able to Factory Reset Hisense Old TVs:Using your remote control, turn on your Hisense TV and then hold the 'EXIT' key for at least 15 secondsAfter 15 seconds, you will see the Hisense TV factory service menuFinally, click 'OK' to turn off the TVAfter resetting your Smart TV, you should wait for 20 seconds before turning it on.Note: This method only works for 2013-14 and older models.How to Reset Hisense TV without Remote?Ensure that all external hard drives and USB cables are disconnectedDisconnect your Hisense Smart TV's power cord after turning it off.After unplugging the TV, wait up to 15 minutes before plugging it in againAfter this turn on the TV back and let it get stable before using it again or giving commands.Also, More importantly, I have found a much better reset than the above reset method without a TV remote and after trying that I saw that whilst the above steps do a Soft Reset to Hisense TV but with the other steps I saw a complete Power Reset along with Soft Reset.As that is a good way to reset the Hisense Smart TV without remote control, I have created another guide that is helpful to fix other issues as well.See Here: Proper Power Resetting your Hisense Smart TV (Any Model)ConclusionYou can use your Generic Remote if you do not have the original remote, as well, and the steps will work the same for that as well. I have outlined these steps above, so you will know exactly what to do in order to reset your Hisense smart TV irrespective of its Models.
